

HELPING HANDS FAMILY

Welcome to our 2009 news letter edition III

With much pressure we wish to thank our sponsors, donors and well-wishers for the continuous love and care to Uganda families. We wish to share with you the steady development because of Helping hands family efforts.

As it is in our strategic plan to develop existing schools, HHF with our tender heart we donated desks to mercy orphanage home.. For mercy orphanage home, it was such a miracle to them because a number of their children were straining themselves to kneeling down so that they can write using benches, as a result of HHF, now they got desks to easier their writings. Helping hands family we desire to bring joy and hope to families in Uganda .

Our intended goals and the divine assignment to help and feed the needy, HHF with our continued support we donate food to mercy orphanage home every week.

These children with their warm welcome, every week they welcome the representative co-ordinator who buys them food, sugar, source as to balance the diet and it has changed their living totally.

As it is mentioned as our again divine assignment to help the needy, we again aim at giving comfort to families. HHF donated money to disabled Theopista as to develop her self by making mats, HHF is represented in Uganda as a result the coordinator provides market for hand made crafted mats.

Just recently HHF donated gifts to Theopista and her grand children.

As the representative of helping hands family in Uganda with much honour I thank all of you who supports HHF with donations, prayers and plus your constructive ideas.

May God bless you.

Best regards
Alice Kisakye
