

HELPING HANDS FAMILY.

Welcome to our 2009 news letter edition 2.

Thank you for your continued interest and support of helping hands family uganda
We would like to share with you what is going on in the different communities
reflecting our vision of equipping abandoned disadvantaged and our orphaned children,
mothers with skills, confidence and financial support to promote their living.

Best Regards.

Alice Kisakye.

Representative/Financial tasks.

We are thankful for every donation, given to uganda. This is the family of Teopista a disabled lady with her grandsons and daughter, Jemina, Jeremiah, Alex and Kenneth. Helping hands family desire to comfort the broken hearted families with love and materialistic support. So for any Euro can make a change in uganda family.

The helping hand family project continues to impact lives of disadvantaged abandoned and orphaned children and their families and community at large. We are investigating various options, such as hope to device programmes to help and support them to develop their business. In uganda some disadvantaged women are capable and committed but the percentage of them lack financial support (capital) to develop their business to bring up their children and take them to school. As a result they end up by failing to pay school fees for them and you find them in life of just existing. As H.H.F. we have a goal to give them micro credits according to their abilities.

Ashraf Nsubuga, a ten year old boy was collecting garbage from houses as to survive with her single mother and siblings Mahad, H.H.F. with its tender love and care as a result they were taken back school with every support needed to comfort their hearts from H.H.F project. With funding from friends, donors, and sponsors we are so much contented that there will be a commendable improvement in lives of uganda families.

Our President Mrs Christine Fenboeck, leads H.H.F with all her effort of fundraising, maintaining relationships and the administrative tasks in Austria. We thank God for her efforts and everyone involved. Together we can make a difference.
