

Helping Hands Family

Welcome to the end of year 2009 new letter edition IV

I greet you in the mighty name of our Lord and thank him for keeping us alive through the year 2009.

On behalf of the Ugandan HHF community. I also thank you for supporting us by raising donations and gifts. Thank you very much for your giving heart.

We have successfully ended the year in spite of our two children **Ashraf** and **Simon** who got serious sickness within the year.

For Austrian HHF community, I convey my condolences to all our sponsors, donors and friends who lost their relatives and friends may their souls rest in eternal peace.

Continuously HHF has been donating food to mercy orphanage home as it is our vision to comfort the abandoned and orphaned children. It is commendable that since we started to donate food to them there is a change in their daily diet, and they are comfortably happy.

MOH were so much happy for their Christmas dinner donation as you can see them enjoying the meal so to every donor and sponsor no one will lack and we urge you to always pray for Uganda and we are to do the same to you.

HHF it is our service to give love and hope to people, recently we decided to feed the kids for Theopista every week this is the disabled woman who does not walk nor stand and she had no hope of getting help from anywhere so we thank our President the vision bearer **Mrs. Christine Fenboeck** and the board at large for the team-work to see that some Ugandans families are living hay life.

Challenges:

As the representative in Uganda am so much challenged that everyday I get cases of children and mothers who are mistreated, abandoned and disadvantaged. So we ask God to help us for this is beyond our understandings.

I thank the families who decided to take Betty and Joseph as their God parents
May God bless you.

Happy new year

Best Regards,

Alice Kisaakye
Representative / Financial tasks.
